VOGEL GmbH & Co. KG was founded in 1952 by Mr. Wilhelm Vogel and was taken over in the second generation by Marlies and Thomas Knauber in 1980. Today, the company is still a 100 % family owned business. VOGEL produces, develops and sells complete systems of high quality, equipments and single parts. The product line includes exhaust systems for histolabs, sophisticated stainless steel constructions (for example grossing-, cutting table and working table for staining) as well as lab-equipments, storage cabinets for formalin baskets and filing cabinets as a complete system.

- Made in Germany
- Customized stainless steel
- Individual solution for your laboratory
- Laboratory equipment
- Storage systems
- Cassettes and slide printers

VCPA-unit
automatic cassette printer

Innovative and effective
the VCPA-unit by VOGEL

The automatic cassette unit includes a carousel magazine. The unit offers flexibility, consistency and reliability for cassette printing needs. Can be used as a stand-alone unit or with computer, bar code scanner (Y-gate) and LAN-access or USB Windows-Driver. 1 Carousel with 6 magazines and 6 adapters for cassettes without lid. In automatic mode up to 600 cassettes per hour. Receiving magazin for up to 38 cassettes.
Easy switch between automatic and manual print.

Print

2 lines, default font, without bar code:
2 x 16 = 32 characters

2 lines, default font, with bar code:
2 x 11 = 22 characters

1 line, uppercase, without bar code:
1 x 13 = 13 characters

Advantages

- Printing mode: job menu, manual print, automatic print
- Bar code scanner adaptable (Y-gate)
- Prints cassettes in approximately 3−3,5 seconds
- LAN-access makes it easy to transfer external data from a computer/laptop to the printer
- USB Windows Driver
- Ribbon with UV-sensitive substance and RFID-chip
- The prints are resistant against all usual solutions in the labs
- Compact dimensions
- Accepts most European standard cassettes ($\measuredangle$ 45°/ stacks)
- Capable of printing special characters
